RIDE YOUR BIKE TO UC DAVIS AS A SAFE AND PLEASANT EXPERIENCE!

BIKING TIPS

Ride a straight line.
- The side of your body should line up with the side of the bike.
- If you are deviating, it will cause you and others to go off course.
- You should be in control at all times.

Follow lane markings.
- Some lanes have raised lane markings.
- These are there to help you stay on the lane.

Use lights.
- Bike lights are required by law.
- They not only help you see better, but also help others see you.
