The Veterinary Medical Teaching Hospital (VMTH) is hosting the 38th Annual House Officer Seminar Day on Friday, March 18, 2016. This scientific event showcases research presentations by approximately 40 residents from all specialty fields within the VMTH. These residents spend up to 4 years of advanced research to perform and complete their studies. The topics as well as the animal species involved in the different projects are very diverse. This whole-day event, starting at 8:30 a.m. will feature two separate tracks (Small Animal/Pathology and Large Animal/Avian-exotics/Lab Animal/Primate) in separate lecture halls. A buffet lunch will be served at noon, and you are welcome to join us at the award ceremony/social at 4:30 p.m.

The annual seminar is attended by over 200 people from our staff personnel, students, faculty members, residents, local veterinarians and industry partners. We invite you to join us for this event not only so that you can hear about some important research before it hits the journals but also so that you can network with the participants and speakers throughout the event. There is no charge for the 5 hours of CE credit available. The only cost to you is for lunch ($15.00 if you opt in. Please bring cash or check on day of event).

Please RSVP to Jan Harlan, Director’s Office, (jtdharlan@ucdavis.edu or 530-752-9963) by March 15th if you would like to attend or for additional details.
