<th>Dry Diet</th>
<th>Wet Diet</th>
<th>Hill’s®</th>
<th>Purina®</th>
<th>Iams®</th>
</tr>
</thead>
</table>
| EARLY CARDIAC | Class I and II Heart Disease  
• Contains nutrients essential for healthy cardiovascular function  
• Moderate, rather than severe, sodium restriction to reduce the workload on the heart  
• EPA and DHA are long chain omega-3 fatty acids that promote a healthy skin and coat | 7.7 lb  
17.6 lb | h/d | | | | |
| ULTAMINO® (formerly ANALLERGENIC®) | Food Elimination Trial, Adverse Food Reactions, Food intolerance, Inflammatory Bowel Disease  
• Formulated with low molecular weight peptides to reduce the risk of allergic food reactions  
• Formula and production process aimed at avoiding sources of food allergens  
• Optional amounts of B vitamins and amino acids help maintain the skin’s natural barrier effect  
• A synergistic complex of antioxidants to support cell health | 8.8 lb  
19.6 lb | 13.6 oz | | | | |
| HYDROLYZED PROTEIN ADULT HP | Adverse Food Reactions, Inflammatory Bowel Disease, and Exocrine Pancreatic Insufficiency  
• Hydrolyzed soy protein, composed of low molecular weight peptides, is highly digestible and has very low antigenic potential  
• Single starch source - rice  
• Optimal amounts of B vitamins and amino acids help maintain the skin’s natural barrier effect  
• EPA and DHA are long chain omega-3 fatty acids that promote a healthy skin and coat  
• Specific nutrient blend to help regulate intestinal transit and to help support the digestive flora | 7.7 lb  
17.6 lb  
25.3 lb | 13.7 oz | 7.7 lb | 17.5 lb | | |
| HYDROLYZED PROTEIN ADULT PS | Adverse Food Reactions, Inflammatory Bowel Disease, and Exocrine Pancreatic Insufficiency  
• All the features and benefits of HYPALLERGENIC HYDROLYZED PROTEIN ADULT HP  
• Single starch source - potato  | 8.8 lb  
24.2 lb | | | | | |
| HYDROLYZED PROTEIN MODERATE CALORIE | Adverse Food Reactions, Inflammatory Bowel Disease, and Exocrine Pancreatic Insufficiency in Dogs Prone to Weight Gain  
• All the features and benefits of HYPALLERGENIC HYDROLYZED PROTEIN ADULT HP  
• Reduced energy levels  
• Enhanced with L-carnitine | 7.7 lb  
24.2 lb | | | | | |
| HYDROLYZED PROTEIN SMALL DOG | Adverse Food Reactions, Inflammatory Bowel Disease, and Exocrine Pancreatic Insufficiency in Small Dogs (under 22 lbs)  
• All the features and benefits of HYPALLERGENIC HYDROLYZED PROTEIN ADULT HP  
• Contains nutrients to support healthy teeth | 8.8 lb | | | | | |
| SELECTED PROTEIN  
• ADULT PD wet (Duck)  
• ADULT PR wet (Rabbit)  
• ADULT PV wet (Venison)  
• ADULT PW Whitefish (canine wet only) | Adverse Food Reactions and Inflammatory Bowel Disease  
• The proteins in SELECTED PROTEIN formulas are rarely associated with adverse food reactions  
• Single meat protein source: Duck, Rabbit, Venison, or Whitefish  
• Single starch source  
Canine: Potato  
Feline: Pea  
• Optimal amounts of B vitamins and amino acids help maintain the skin’s natural barrier effect  
• EPA and DHA help promote a healthy skin and coat | 13.6 oz | | Skin & Coat Plus | | |
| SELECTED PROTEIN  
• ADULT PD dry  
• ADULT PR dry  
• ADULT PV dry | Adverse Food Reactions and Inflammatory Bowel Disease  
• All the features and benefits of SELECTED PROTEIN formulas  
• Meat protein source: Duck, Rabbit, or Venison  
• Additional protein source: Hydrolyzed soy  
• Single starch source  
Canine: Potato  
Feline: Pea | 7.7 lb  
17.6 lb  
25.3 lb | d/d | | | |
| SELECTED PROTEIN ADULT PW LARGE BREED | Adverse Food Reactions and Inflammatory Bowel Disease in Large Breed Dogs (over 55 lbs)  
• All the features and benefits of SELECTED PROTEIN formulas  
• Single meat protein source: Whitefish  
• Single starch source: Potato  
• Glucosamine and chondroitin sulfate to maintain joint health | 26.4 lb | | | | | |
| SELECTED PROTEIN ADULT PW MODERATE CALORIE | Adverse Food Reactions and Inflammatory Bowel Disease in Dogs Prone to Weight Gain  
• All the features and benefits of SELECTED PROTEIN formulas  
• Single meat protein source: Whitefish  
• Single starch source: Potato  
• Reduced energy levels for dogs prone to obesity | 7.7 lb  
24.2 lb | | | | | |
| SKIN SUPPORT | Atopic Dermatitis and Contact Hypersensitivity  
• Supplemented with curcumin, aloe vera, vitamin C, and taurine to help wound healing, decrease secondary bacterial infections, and decrease pruritus  
• Optimal amounts of B vitamins and amino acids help maintain the skin’s natural barrier effect | 6 lb  
14.5 lb  
32 lb | | | | | |
| VEGETARIAN | Adverse Food Reactions and To Aid in the Prevention of Urate Urolithiasis  
• Proteins exclusively from vegetable origin  
• Enhanced levels of inosinic acid, zinc and biotin help to promote a healthy skin and coat  
• Helps to reduce the urinary excretion of purines | 17.6 lb  
13.6 oz | | | | | |

* Indication for growth only applies to dry diet  
** ADULT PD only  
† ADULT PV only

</table>
| **DIABETES**  | Diabetes Mellitus:  
• Formulated to aid in the management of post-prandial blood glucose levels in diabetic dogs and cats  
• High protein content to help maintain muscle mass in overweight diabetic dogs and cats |  |  |  |  |  |  |
| **GASTROINTESTINAL™ FIBER RESPONSE** | Fiber Responsive Gastrointestinal Disease:  
• A combination of highly digestible proteins, prebiotics and EPA & DHA helps support digestive health  
• An optimal blend of insoluble and soluble fiber helps maintain intestinal health  
• Eicosapentaenoic and docosahexaenoic acids help protect against inflammatory responses within the gastrointestinal tract  
• A precise blend of antioxidants helps support a healthy immune system |  |  |  |  |  |  |
| **GASTROINTESTINAL™ HIGH ENERGY** | Acute and Chronic Gastroenteritis in Normal or Underweight Dog and Cats:  
• A combination of highly digestible proteins, prebiotics and EPA & DHA helps support digestive health  
• A high energy content allows a reduction in meal volume and a decreased intestinal load  
• Eicosapentaenoic and docosahexaenoic acids help protect against inflammatory responses within the gastrointestinal tract  
• A precise blend of antioxidants helps support a healthy immune system |  |  |  |  |  |  |
| **GASTROINTESTINAL™ PUPPY** | Acute and Chronic Gastroenteritis in Puppies:  
• A combination of highly digestible proteins, prebiotics and EPA & DHA helps support digestive health  
• Formulated to fulfill the nutritional needs of growing puppies  
• A high energy content allows a reduction in meal volume and a decreased intestinal load  
• Kibbles rehydrate easily in warm water to increase palatability and facilitate food intake |  |  |  |  |  |  |
| **GASTROINTESTINAL™ MODERATE CALORIE** | Acute and Chronic Gastroenteritis in Dogs and Cats prone to obesity:  
• A combination of highly digestible proteins, prebiotics and EPA & DHA helps support digestive health  
• A reduced calorie content helps support healthy body condition in spayed/neutered dogs and cats or those with a tendency to be or become overweight  
• Eicosapentaenoic and docosahexaenoic acids help protect against inflammatory responses within the gastrointestinal tract  
• A precise blend of antioxidants helps support a healthy immune system |  |  |  |  |  |  |
| **GASTROINTESTINAL™ LOW FAT** | Pancreatitis, Exocrine Pancreatic Insufficiency, Lymphangiectasia, and Hyperlipidemia:  
• A combination of highly digestible proteins, prebiotics and EPA & DHA helps support digestive health  
• A low fat concentration, while providing a maintenance energy level, helps dogs with difficulties in digesting fat  
• Balanced fiber content ensures high digestibility, nutrient absorption, and limited colonic fermentation  
• A precise blend of antioxidants helps support a healthy immune system |  |  |  |  |  |  |
| **HEPATIC™** | Liver Failure, Portosystemic Shunts, and Disorders of Copper Metabolism:  
• Low level of copper to help minimize its accumulation in liver cells  
• High energy density helps reduce the amount of food given per meal  
• A precise blend of antioxidants helps support a healthy immune system |  |  |  |  |  |  |
| **MOBILITY SUPPORT JS™** | Degenerative Joint Disease:  
• Made with a patented process to ensure delivery of New Zealand green mussel in the finished pet food  
• A precise blend of antioxidants help support a healthy immune system  
• EPA and DHA help support healthy joints |  |  |  |  |  |  |
| **MOBILITY SUPPORT JS™ LARGE BREED** | Degenerative Joint Disease in Large Breed Dogs (over 55 lbs):  
• All the features and benefits of MOBILITY SUPPORT JS™  
• Specially designed kibble shape, size, and texture adapted for a large breed dog’s jaws and teeth |  |  |  |  |  |  |
| **RENA® SUPPORT** | All Stages of Chronic Kidney Disease:  
• Formulated with optimal nutrient levels, including low protein and phosphorus, a complex of antioxidants, and EPA/DHA  
• Customized palatability profile designed for individual preferences.  
• High energy density utilizing dietary fat to improve palatability and reduce feeding volumes in inappetent pets  
• Naturally preserved to ensure freshness and quality |  |  |  |  |  |  |
| **RENA® SUPPORT** | All Stages of Chronic Kidney Disease:
