How this program works
SCAVMA offers this program to all registered SAVMA members, VMTH Residents, Faculty, and Staff at the beginning of each school year. This program allows the UC Davis Vet Med community to receive the Pet Food they love at discounted prices while also helping their SAVMA Chapter. The Pet Food Program is a major fundraiser for UC Davis SAVMA, and membership in this program goes directly back to the UC Davis SCAVMA Chapter to aid in wetlabs, conferences, and more student opportunities. Please see the Program Details below for membership fees. Remember: proceeds from this program go directly to the UC Davis SCAVMA Chapter and feed student club activities.

The SAVMA Pet Food Program runs from September through May of each school year, with some companies’ programs continuing through the summer. Members can order food online or through the respective student representative. Some companies offer monthly distributions, while other companies vary. Each company has different offers available through the program. The student company reps are responsible for coordinating and managing these distributions. For additional questions, please contact these student reps about their company ordering systems. Contact information can be accessed through the SAVMA Pet Food Program webpage (links are included further in the document).

Membership fees remain static throughout the year, so sign up now to take advantage of this membership benefit!

---

**Please register before **Friday, August 26**th in order to access the September Pet Food distribution. September distribution is expected to occur towards the second half of the month. Deadline to participate for October is **Tuesday, September 15**th.**

For the continuation of the school year, deadline to participate will occur on the 15th of the prior month (i.e. if interested in January food distribution, sign up by the 15th of December, etc.).

SCAVMA **will take enrollment** for the program throughout the year, so whether you acquire a pet (as many Vet Students do) or are not sure at this time if you’re willing to commit, **the program will always accept new sign ups!**
