

The Virginia Perry Wilson Endowment  
School of Veterinary Medicine  
and

# "The Cell Based Theory of Coagulation" by

Stephanie A. Smith, DVM, Dipl ACVIM

Dr. Smith is a Research Assistant Professor in the Department of Internal Medicine at the College of Medicine, University of Illinois at Urbana-Champaign. She was the recipient of the New Investigator Award, 6<sup>th</sup> Annual Conference on Arteriosclerosis, Thrombosis and Vascular Biology, American Heart Association, 2005. Her ongoing research has investigated the pharmacokinetics and pharmacodynamics of biotinylated idraparin in normal cats, enhancing survival of hemolytic anemia with monitored heparin therapy, glucocorticoid-associated congestive heart failure in cats, as well as many other aspects of hematologic disorders in companion animals. Dr. Smith has been extensively published in the Journal of Veterinary Internal Medicine, American Journal of Veterinary Research, Journal of Thrombosis and Haemostasis, Blood, and the Proceedings of the National Academy of Sciences. She is an expert in the field of coagulation and hemostasis.

**Thursday, February 26<sup>th</sup>, 2009**  
1020 Valley Hall

Dinner at 6:00 PM  
Seminar 6:30 – 7:30 PM  
**Reception to follow**

**Food and beverages provided with the compliments of  
Pfizer Animal Health & Big White House Winery**

Please RSVP at the SVECCS Club Website
