The UC Davis Wildlife and Aquatic Animal Medicine Club presents the 18th Annual Wildlife Medicine Symposium

**Conservation Medicine**

The Role of the Veterinarians in Ecosystem Health and Species Survival

**Saturday, January 21st 2012**

**Aquatic Species Day**

**Sunday, January 22nd 2012**

**Terrestrial Species Day**

---

**Presenters**

**Saturday, January 21st**

**Project Piaba: Development Towards a Sustainable Natural Resource in Amazon Fresh Water Fisheries**

E. Scott Weber, DVM, MSC
UC Davis School of Veterinary Medicine

**Marine Mammal Necropsy Techniques**

Melissa Miller, DVM, PhD
California Department of Fish and Game

**Basic Pinniped Clinical Techniques**

Bill Van Bonn, DVM
The Marine Mammal Center in Sausalito

**Applied Conservation Medicine**

Todd Schmitt, DVM
Sea World San Diego

**Coral husbandry and management of a coral reef exhibit through sustainable practices of in-house propagation and collecting**

Freeland Dunker, DVM
Steinhart Aquarium, California Academy of Sciences

**Trends in Sea Otter Populations: The Nearshore Ecosystem Health Study**

Mike Murray, DVM
Monterey Bay Aquarium

---

**Sunday, January 22nd**

**The Mountain Lion and Bobcat Project: Apex Predators in the Urban Environment**

Winston Vickers, DVM
UC Davis Wildlife Health Center

**The Mountain Gorilla Veterinary Project**

Kirsten Gilardi, DVM, ACZM
UC Davis Wildlife Health Center

**“Should We Rehabilitate Injured Wildlife?”: Perspectives from Oil Spill Management**

Christine Fiorello, DVM, PhD, ACZM
UC Davis Oiled Wildlife Care Network

**Diagnosing and Treating Sick Ecosystems**

Dave Jessup, DVM, MPVM, ACZM, CWB
Wildlife Disease Association

**The Grevy Zebra Trust: A community program in Kenya**

Raymond Wack, DVM, ACZM
UC Davis School of Veterinary Medicine, Sacramento Zoo

**Elephant Field Anesthesia and Conservation in Cameroon**

Sathya Chinnadurai, DVM, MSC, ACZM
UC Davis School of Veterinary Medicine, Sacramento Zoo

---

**Wet Labs: (Space is limited)**

**Saturday, January 21st**

Necropsy techniques for marine mammals and teleost fish species, led by Dr. Weber, Dr. Miller, Dr. Van Bonn and Dr. Dunker.

**Sunday, January 22nd**

Necropsy techniques for avian and mammalian terrestrial wildlife species, led by Dr. Patricia Gaffney and Dr. Steve Kubiski.
