

**DEPARTMENT OF SURGICAL AND RADIOLOGICAL SCIENCES
SCHOOL OF VETERINARY MEDICINE
UNIVERSITY OF CALIFORNIA, DAVIS**

POSITION AVAILABLE: Assistant Professor of Veterinary Emergency and Intensive Care (Small Animal)

SALARY: Dependent on qualifications and experience

QUALIFICATIONS: Veterinarian with advanced training in veterinary emergency and critical care required. American College of Veterinary Emergency and Critical Care board certification, or eligibility for board certification, required. PhD or advanced research training in a discipline associated with veterinary emergency and critical care preferred. Documented research record or potential to develop an independent research program in the field of veterinary emergency and critical care required. Demonstrated aptitude/experience in clinical instruction of DVM students and residents in veterinary emergency and critical care required. Demonstrated aptitude/ability to develop creative instructional programs for graduate students in the classroom and laboratory required. Must possess excellent interpersonal and communication skills, and a demonstrated ability to work with others in a collegial team atmosphere.

RESPONSIBILITIES:

Teaching: Responsibilities include: 1) participation in lectures and laboratories of the core and elective courses and emergency/critical care components of other courses in the DVM professional curriculum; 2) clinical teaching in the Veterinary Medical Teaching Hospital (VMTH); 3) participation in the graduate clinical (resident) training program of the VMTH; and 4) participation in the graduate academic programs (MS and PhD) of the campus.

Clinical: This position includes a 50% clinical commitment to the Emergency Service and Intensive Care Service of the VMTH. The individual will be responsible for directing, instructing and supervising veterinary students and house officers; providing health care and service to patients; and advising and consulting with referring veterinarians and clients. Additionally, the individual will be responsible for the management of emergency and critical care patients in the Small Animal Intensive Care Unit of the VMTH.

Research: The development of a creative, independent and productive basic and/or clinically-oriented research program in emergency services and critical patient care is a fundamental and indispensable requirement of the position, including publication of results in professional/scientific journals. Individual will provide leadership in directing research projects of residents and graduate students.

Service: University and public service through committee work, participation in professional organizations, continuing education and other appropriate means is required.

APPLICATION PROCESS: To receive fullest consideration, applications must be received by **Friday, June 30, 2006**; position open until filled. Interested applicants should submit 1) a letter of intent outlining special interest in the position, overall related qualifications and experience and career goals; 2) curriculum vitae; and 3) the names and addresses of three professional references to:
