POSITION AVAILABLE: Assistant/Associate/Full Professor of Small Animal Emergency and Critical Care (tenure track)

SALARY: Dependent on qualifications and experience

START DATE: Negotiable

QUALIFICATIONS: Veterinarian with advanced training in veterinary emergency and critical care required. American College of Veterinary Emergency and Critical Care board certification, or eligibility for board certification, required. PhD or advanced research training in a discipline associated with veterinary emergency and critical care preferred. Documented research record or potential to develop an independent research program in the field of veterinary emergency and critical care required. Demonstrated aptitude/experience in clinical instruction of DVM students and residents in veterinary emergency and critical care required. Demonstrated aptitude/ability to develop creative instructional programs for graduate students in the classroom and laboratory required. Must possess excellent interpersonal and communication skills, and a demonstrated ability to work with others in a collegial team atmosphere.

RESPONSIBILITIES: Teaching: Responsibilities include: 1) participation in lectures and laboratories in the DVM professional curriculum; 2) clinical teaching in the William R. Pritchard Veterinary Medical Teaching Hospital (VMTH); 3) participation in the graduate clinical (intern and resident) training program of the VMTH; and 4) participation in the graduate academic programs (MS and PhD) of the campus.

Clinical: This position includes a 50% clinical commitment to the Small Animal Emergency and Critical Care Service of the VMTH. The individual will be responsible for directing, instructing and supervising veterinary students and house officers; providing health care and service to patients; and advising and consulting with clinicians of the VMTH, referring veterinarians and clients.

Research: The development of a creative, independent and productive basic and/or clinically-oriented research program in emergency services and critical patient care is a fundamental and indispensable requirement of the position, including publication of results in professional/scientific journals. Individual will provide leadership in directing research projects of residents and graduate students.

Service: University and public service through committee work, participation in professional organizations, continuing education and other appropriate means is required.

APPLICATION PROCESS: To receive fullest consideration, applications must be submitted by April 15, 2016. Position is open until filled. To begin the application process, interested applicants should register online at https://recruit.ucdavis.edu/apply/JPF00840 and submit the following materials: 1) a letter of intent outlining special interest in the position, overall related qualifications, experience and career goals; 2) curriculum vitae; 3) the names and addresses of four professional references, and 4) a statement summarizing their experience and professional contributions in the area of equity and diversity. For questions about the application process please contact:
