For program information, check the CVME Web site (www.vetmed.ucdavis.edu/ce) or contact CVME coordinator Ryan Arnold: rmarnold@ucdavis.edu, phone (530) 752-3905, fax (530) 752-7563.

Dr. Frank Verstraete, chief of the Veterinary Medical Teaching Hospital Dentistry Service, instructs fourth-year students in techniques such as dental radiography, an important part of examination and treatment. Above: a German shepherd dog gets a radiographic followup examination three months after a root canal.

CONTINUING EDUCATION

DENTISTRY AND ORAL SURGERY

The first annual UC Davis Veterinary Dentistry and Oral Surgery Seminar was held May 9 through 16 in Maui, Hawaii. The seminar, presented by the School of Veterinary Medicine in cooperation with University Extension, focused on the current state of the art in routine and advanced dentistry techniques and optimized home care.
