For the Assistant/Associate/Full Professor of Clinical Medical/Radiation Oncology title series, a documented record of creative scholarship and professional activities, and to the development of a campus climate that supports equality and diversity. The University of California is an Affirmative Action/Equal Opportunity Employer.

**Position Available:**
Assistant/Associate/Full Professor of Clinical Medical/Radiation Oncology, or Health Sciences Assistant/Associate/Full Clinical Professor of Medical/Radiation Oncology

**Salary:**
Dependent on qualifications and experience

**Start Date:**
Negotiable

**Qualifications:**
Both title series -- Veterinarian with advanced training in oncology and experience in clinical trials. Board certification or completion of an approved residency of the American College of Veterinary Internal Medicine (Oncology), the European College of Veterinary Internal Medicine -- Companion Animals (Oncology), or the American College of Veterinary Radiology (Radiation Oncology) by August 1, 2015 is required. Clinical experience and competence in medical and/or radiation oncology is required and preference will be given to those with clinical trials interest and experience. Demonstrated aptitude/experience in teaching, particularly clinical instruction, required. Must possess outstanding interpersonal and communication skills and a demonstrated ability to work with others in a collegial team atmosphere.

For the Assistant/Associate/Full Professor of Clinical Medical/Radiation Oncology title series, a documented record of creative scholarship or potential to develop an independent clinical research program in oncology is required. Research interests and experience in companion-animal clinical trials preferred.

**Responsibilities:**

**Clinical:** The position includes either a 70% (Prof of Clinical series) or 90% (Health Sciences Clinical series) clinical effort assignment to the Oncology Service and Oncology Clinical Trials Program of the William R. Pritchard Veterinary Medical Teaching Hospital (VMTH). Individual will be responsible for directing, instructing and supervising veterinary students and residents; providing health care and service to patients; and advising and consulting with referring veterinarians and clients. Demonstration of distinction in clinical oncology practice is an expectation.

**Teaching:** The primary teaching responsibility will be direct daily supervision and instruction of veterinary students and residents in medical oncology. Other responsibilities include: 1) lectures and laboratories in the DVM professional curriculum; 2) participation in all aspects of the graduate clinical (resident) medical oncology training program of the VMTH; and 3) continuing professional education. The successful individual is expected to demonstrate excellence in teaching.

**Professional Competence:** Advance the discipline within the VMTH, as well as locally and nationally, through participation and leadership in providing high quality patient care in the hospital environment. Expected to establish a reputation for clinical excellence locally, regionally and nationally, depending upon level of appointment.

**Service:** University and public service through committee work, participation in professional organizations, continuing education and other appropriate means is required.

**Creative Scholarship:** Faculty in the Professor of Clinical series (70% clinical effort) are expected to advance the clinical discipline through creation and dissemination of new knowledge with documentation by peer-reviewed publications. Creative/scholarly activities are required for individuals in this series, but in view of the responsibilities for clinical service and teaching, the type of scholarly activity may focus primarily on integrating/improving clinical care, conducting clinical research studies, and/or improving veterinary medical education. Creative scholarship is not a requirement for career advancement in the Health Sciences Clinical Professor series (90% clinical effort).

**Application:**
To receive fullest consideration, applications must be submitted by March 27, 2015. To begin the application process, interested applicants should register online at [https://recruit.ucdavis.edu](https://recruit.ucdavis.edu) and submit the following materials:

1. a letter of intent outlining special interest in the position, overall related qualifications, experience and career goals; 2) curriculum vitae; and 3) the names and addresses of four professional references; and 4) a statement summarizing experience and professional contributions in the area of equity and diversity. For questions about the application process please contact:
