Assistant/Associate Professor of Clinical Neurology/Neurosurgery (Clinical Track Position)

Dependent on qualifications and experience.

Veterinarian with advanced training in neurology/neurosurgery. Board certification or eligibility in the American College of Veterinary Internal Medicine (Neurology), or the European College of Veterinary Neurology, or completion of an approved neurology residency of the American College of Veterinary Internal Medicine (Neurology), or the European College of Veterinary Neurology by August 1, 2016 is required. Clinical experience and competence in neurology/neurosurgery is required. Demonstrated aptitude/experience in teaching, particularly clinical instruction is required. Documented record of creative scholarship or potential to develop an independent clinical research program in neurology/neurosurgery is required. Must possess excellent interpersonal and communication skills and a demonstrated ability to work with others in a collegial team atmosphere.

Clinical: The position includes a 70% clinical commitment to the Neurology/Neurosurgery Service of the Veterinary Medical Teaching Hospital (VMTH). Individual will be responsible for directing, instructing and supervising veterinary students and residents; providing health care and service to patients; and advising and consulting with referring veterinarians and clients.

Teaching: The primary teaching responsibility will be direct daily supervision and instruction of senior students and residents in neurology/neurosurgery. Other responsibilities include: 1) participation in lectures and laboratories in the DVM professional curriculum; 2) clinical teaching in the VMTH; and 3) participation in all aspects of the clinical (resident) training program of the VMTH.

Professional Competence: Advance the discipline within the VMTH, as well as locally and nationally, through participation and leadership in providing high quality patient care in the hospital environment. Expected to establish reputation for clinical excellence locally, regionally and nationally, depending upon level of appointment. Must demonstrate clinical competence and be recognized for accomplishment in a focused area of clinical practice.

Creative Scholarship: Faculty are expected to advance the clinical discipline through creation and dissemination of new knowledge with documentation in peer-reviewed publications. Creative/scholarly activities are required for individuals in this series, but in view of the increased responsibilities for clinical service and teaching, the type of scholarly activity may focus primarily on integrating/improving clinical care, conducting clinical research studies, and/or improving veterinary medical education.

Service: University and public service through committee work, participation in professional organizations, continuing education and other appropriate means is required.

To receive fullest consideration, applications must be submitted by September 14, 2015. Position is open until filled. To begin the application process, interested applicants should register online at https://recruit.ucdavis.edu/apply/JPF00626 and submit the following materials: 1) a letter of intent outlining special interest in the position, overall related qualifications, experience and career goals; 2) curriculum vitae; 3) the names and addresses of four professional references; and 4) a statement summarizing experience and professional contributions in the area of equity and diversity.
