POSITION AVAILABLE: Assistant/Associate/Full Professor of Small Animal Soft Tissue Surgery (Tenure Track Position)

SALARY: Dependent on qualifications and experience

STARTING DATE: Appointment effective as soon as suitable candidate identified

QUALIFICATIONS: Veterinarian with advanced training in small animal soft tissue surgery is required. Board certification in the American College of Veterinary Surgeons or the European College of Veterinary Surgeons, or completion of an approved residency of the American College of Veterinary Surgeons by September 1, 2015 is required. PhD or advanced research training is preferred. Must have a documented research record or demonstrated potential to develop an independent research program in small animal soft tissue surgery. Demonstrated aptitude/experience in clinical instruction of DVM students and residents in small animal surgery required. Demonstrated ability to develop creative instructional programs for graduate students in the classroom and laboratory is required. Must possess excellent interpersonal and communication skills and a demonstrated ability to work with others in a collegial team atmosphere.

RESPONSIBILITIES: Teaching: Responsibilities include: 1) participation in lectures and laboratories in the DVM professional curriculum; 2) clinical teaching in the William R. Pritchard Veterinary Medical Teaching Hospital (VMTH); 3) participation in the graduate clinical (resident) training program of the VMTH; and 4) participation in the graduate academic programs (MS and PhD) of the campus.

Clinical: This position includes a 50% clinical effort assignment to the Small Animal Soft Tissue Surgery Service of the VMTH but is negotiable depending on level of research funding and activity. The individual will be responsible for directing, instructing and supervising veterinary students and residents; providing health care and service to patients; and advising and consulting with referring veterinarians and clients.

Research: The development of a creative, independent and productive basic and/or clinically-oriented research program relevant to small animal soft tissue surgery is a fundamental and indispensable requirement of the position, including publication of results in professional/scientific journals. The individual will provide leadership in directing research projects of residents and graduate students.

Service: University and public service through committee work, participation in professional organizations, continuing education and other appropriate means is required.

APPLICATION PROCESS: To receive fullest consideration, applications must be submitted by March 27, 2015. Position is open until filled. To begin the application process, interested applicants should register online at https://recruit.ucdavis.edu/apply/JPF00517 and submit the following materials: 1) a letter of intent outlining special interest in the position, overall related qualifications, experience and career goals; 2) curriculum vitae; 3) the names and addresses of four professional references, and 4) a statement summarizing their experience and professional contributions in the area of equity and diversity. For questions about the application process please contact:
