

**DEPARTMENT OF SURGICAL AND RADIOLOGICAL SCIENCES
SCHOOL OF VETERINARY MEDICINE
UNIVERSITY OF CALIFORNIA, DAVIS**

POSITION AVAILABLE: Assistant/Associate/Full Professor of Veterinary Ophthalmology

SALARY: Dependent on qualifications and experience

QUALIFICATIONS: Veterinarian with advanced training in Veterinary Ophthalmology required. Board certification by the American or European College of Veterinary Ophthalmologists, or eligibility for certification by the American College of Veterinary Ophthalmologists, required. PhD or advanced research training in veterinary ophthalmology preferred. Documented research record or potential as a creative scientist and obvious potential to develop the field of veterinary ophthalmology required. Demonstrated aptitude/experience in clinical instruction of DVM students and residents in veterinary ophthalmology and the ability to develop creative instructional programs for graduate students in the classroom and laboratory required. Must possess excellent interpersonal and communication skills and a demonstrated ability to work with others in a collegial team atmosphere.

RESPONSIBILITIES: Teaching: Responsibilities include: 1) participation in lectures and laboratories of the core and elective courses and ophthalmic components of other courses in the DVM professional curriculum; 2) clinical teaching in the Veterinary Medical Teaching Hospital (VMTH); 3) participation in the graduate clinical (resident) training program of the VMTH; and 4) participation in the graduate academic programs (MS and PhD) of the campus.

Clinical: This position includes a 50% clinical commitment to the Ophthalmology Service of the VMTH. The individual will be responsible for directing, instructing and supervising veterinary students and house officers; providing health care and service to patients; and advising and consulting with referring veterinarians and clients. Additionally, the individual will be responsible for the medical and surgical management of ophthalmic diseases of all species brought to or cared for by the VMTH.

Research: The development of a creative, independent and productive basic and/or clinically-oriented research program in ophthalmology is a fundamental and indispensable requirement of the position, including publication of results in professional/scientific journals. Individual will provide leadership in directing research projects of residents and graduate students.

Service: University and public service through committee work, participation in professional organizations, continuing education and other appropriate means is required.

APPLICATION PROCESS: The position is open until filled. Interested applicants should submit 1) a letter of intent outlining special interest in the position, overall related qualifications and experience and career goals; 2) curriculum vitae; and 3) the names and addresses of four professional references to:
