**POSITION AVAILABLE:** Assistant/Associate/Full Professor of Neurology/Neurosurgery (Tenure Track Position)

**SALARY:** Dependent on qualifications and experience.

**QUALIFICATIONS:**
Veterinarian with advanced training in Neurology and Neurosurgery. Board certification by the American College of Veterinary Internal Medicine or European College of Veterinary Neurology is required by the date of appointment. PhD or advanced training in research is preferred but not required. Clinical experience and competence in medical neurology and neurosurgery is required. Demonstrated aptitude and experience in teaching is required. Documented research record or potential to develop an independent research program is required; an emphasis in neurosurgery or neurosurgical related fields is preferred. Must possess excellent interpersonal and communication skills and a demonstrated ability to work with others in a collegial team atmosphere.

A valid license to practice veterinary medicine in California is required before employment begins (California Business and Professions Code Section 4846-4857). Individuals without a full California license must obtain a University License (California Business and Professions Code Section 4848.1) by the time of appointment.

**RESPONSIBILITIES:**
- **Teaching:** Responsibilities include: 1) participation in lectures, discussion sessions and laboratories in the DVM professional curriculum; 2) clinical teaching in the Veterinary Medical Teaching Hospital (VMTH); 3) participation in the graduate clinical (resident) training program of the VMTH; and 4) participation in the graduate academic programs (MS and PhD) of the campus if applicable.
- **Clinical:** The position includes a 50% clinical effort assignment to the Neurology/Neurosurgery Service of the VMTH. The individual will be responsible for directing, instructing and supervising veterinary students and house officers; providing care to patients; and advising and consulting with referring veterinarians and clients.
- **Research:** The development of a creative, focused and productive basic and/or clinically-oriented research program in neurosurgery and/or neurosurgery related fields is a fundamental and indispensable requirement of the position, including publication of results in professional/scientific journals. Individual will provide leadership in directing research projects of veterinary students, residents and graduate students.
- **Service:** University and public service through committee work, participation in professional organizations, continuing education and other appropriate means is expected.

**APPLICATION PROCESS:**
To receive fullest consideration, applications must be submitted by March 15, 2022. Position is open until filled. To begin the application process, interested applicants should register online at [https://recruit.ucdavis.edu/JPF04658](https://recruit.ucdavis.edu/JPF04658) and submit the following materials: 1) a letter of intent outlining special interest in the position, overall related qualifications, and experience and career goals; 2) a curriculum vitae; 3) a statement of didactic and clinical teaching philosophy; 4) a statement on research plan; 5) a statement summarizing experience and professional contributions in the area of equity and diversity; 6) Authorization to Release Information Form; and 7) the names and addresses of four professional references. For questions about the application process please contact:
