POSITION AVAILABLE: Assistant/Associate/Full Professor of Neurology/Neurosurgery (Tenure Track Position)

SALARY: The salary range for this position is $166,400 to $311,100. “Off-scale salaries” and other components of pay, i.e., a salary that is higher than the published system-wide salary at the designated rank and step, are offered when necessary to meet competitive conditions, qualifications, and experience.

QUALIFICATIONS: Veterinarian with advanced training in Neurology and Neurosurgery. Board certification in the American College of Veterinary Internal Medicine (Neurology) or European College of Neurology or have completed an accredited neurology residency program by the date of appointment; PhD or advanced training in research is preferred but not required. Clinical experience and competence in medical neurology and neurosurgery is required. Demonstrated aptitude and experience in teaching is required. Documented research record or potential to develop an independent research program is required. Must possess excellent interpersonal and communication skills and a demonstrated ability to work with others in a collegial team atmosphere.

Must be eligible for veterinary medical licensing in the State of California (California Business and Professions Code Section 4846-4857). Individuals must obtain a full CA license (California Business and Professions Code Section 4846) or a University license (California Business and Professions Code Section 4848.1) prior to beginning clinical duties.

RESPONSIBILITIES: Teaching: Responsibilities include: 1) participation in lectures, discussion sessions and laboratories in the DVM professional curriculum; 2) clinical teaching in the Veterinary Medical Teaching Hospital (VMTH); 3) participation in the graduate clinical (resident) training program of the VMTH; and 4) participation in the graduate academic programs (MS and PhD) of the campus if applicable.

Clinical: The position includes a 50% clinical effort assignment to the Neurology/Neurosurgery Service of the VMTH. The individual will be responsible for directing, instructing and supervising veterinary students and house officers; providing care to patients; and advising and consulting with referring veterinarians and clients. An individual with a neurosurgical focus and an interest in developing a surgical subspecialty with the group is preferred.

Research: The development of a creative, focused and productive basic and/or clinically-oriented research program is a fundamental and indispensable requirement of the position, including publication of results in professional/scientific journals. Individual will provide leadership in directing research projects of veterinary students, residents and graduate students.

Service: University and public service through committee work, participation in professional organizations, continuing education and other appropriate means is expected.

APPLICATION PROCESS: To receive fullest consideration, applications must be submitted by December 11, 2023. Position is open until filled. To begin the application process, interested applicants should register online at https://recruit.ucdavis.edu/JPF06137 and submit the following materials: 1) a letter of intent outlining special interest in the position, overall related qualifications, and experience and career goals; 2) a curriculum vitae; 3) a statement of didactic and clinical teaching philosophy; 4) a statement on research plan; 5) a statement summarizing experience and professional contributions in the area of equity and diversity; 6) Authorization to Release Information Form; and 7) the names and addresses of four professional references. For questions about the application process please contact:
