

-
- POSITION AVAILABLE:** Assistant/Associate/Full Professor of Equine Surgical Emergency and Critical Care
- SALARY:** Dependent on qualifications and experience
- START DATE:** On or after January 2, 2019 (actual start date is negotiable)
- QUALIFICATIONS:** Veterinarian with advanced training in Equine Surgery. Board certification by the American College of Veterinary Surgeons or European College of Veterinary Surgeons is required. Board certification in the American College of Veterinary Emergency and Critical Care is desired. PhD or advanced training in research is preferred. Clinical experience and competence in equine surgery and critical care is required. Demonstrated aptitude/experience in teaching is required. Documented research record or potential to develop an independent research program in equine surgery is required; emphasis in equine/comparative gastroenterology or emergency surgery/critical care preferred. Must possess outstanding interpersonal and communication skills and a demonstrated ability to work with others in a collegial team atmosphere. A valid license to practice veterinary medicine in California is required before employment (California Business and Professions Code Section 4846-4857). Individuals not eligible for a full California license must obtain a University License (California Business and Professions Code Section 4848.1) by the time of appointment.
- RESPONSIBILITIES:**
- Teaching:** Responsibilities include: 1) participation in lectures and laboratories in the DVM professional curriculum; 2) clinical teaching in the Veterinary Medical Teaching Hospital (VMTH); 3) participation in the graduate clinical (resident) training program of the VMTH; and 4) participation in the graduate academic programs (MS and PhD) of the campus.
- Clinical:** The position includes a 50% clinical commitment to the Equine Surgical Emergency and Critical Care Service of the VMTH. The individual will be responsible for directing, instructing and supervising veterinary students and house officers; providing health care and service to patients; and advising and consulting with referring veterinarians and clients.
- Research:** The development of a creative, independent and productive basic and/or clinically-oriented research program in equine surgery is a fundamental and indispensable requirement of the position, including publication of results in professional/scientific journals. An emphasis on equine/comparative gastroenterology or emergency surgery/critical care is preferred. The individual will provide leadership in directing research projects of residents and/or graduate students.
- Service:** University and public service through committee work, participation in professional organizations, continuing education and other appropriate means is required.
- APPLICATION PROCESS:** To receive fullest consideration, applications must be submitted by **August 1, 2018**. Position is open until filled. To begin the application process, interested applicants should register online at <https://recruit.ucdavis.edu/apply/JPF02214> and submit the following materials: 1) a letter of intent outlining special interest in the position, overall related qualifications, experience and career goals; 2) curriculum vitae; 3) the names and addresses of three professional references; and 4) a statement summarizing experience and professional contributions in the area of equity and diversity. Questions should be referred to:
