University of California, Davis

For more than 100 years, the University of California, Davis, has engaged in teaching, research and public service that matter to California and transform the world. Located close to the state capital, UC Davis has over 39,000 students, an annual research budget that exceeds \$847 million, a comprehensive health system and 13 specialized research centers. The university offers interdisciplinary graduate study and more than 104 undergraduate majors in four colleges – Agricultural and Environmental Sciences, Biological Sciences, Engineering, and Letters and Science. It also houses six professional schools – Education, Law, Management, Medicine, Veterinary Medicine and the Betty Irene Moore School of Nursing.

School of Veterinary Medicine

The UC Davis School of Veterinary Medicine provides teaching, research and service programs to benefit animal health, public health and environmental health. As the only veterinary school in the University of California system, we serve the entire state.

The Doctor of Veterinary Medicine degree program is a four-year course of academic study and clinical training. Faculty research and the real-world cases of the William R. Pritchard Veterinary Medical Teaching Hospital are essential components of the program. Students enrich their learning through scientific projects, international exchange, volunteer activities and field experience.

Since 1948, the School of Veterinary Medicine has launched the careers of more than 6,300 veterinarians and 960 Master of Preventive Veterinary Medicine professionals. More than 1,050 residents and dozens of master's and doctoral students have completed training here. All keep current in their fields through continuing education at the school. Our graduates are practitioners and leaders in private practice, public agencies, academia, industry and other settings.

White Coat Ceremony

The white coat is the symbol of clinical service and care. At other schools, students only participate in didactic education in the first years of their training. Their white coat ceremony then occurs during their transition to the clinical phase of their education. At UC Davis, students will have the opportunity to work with patients and gain clinical skills in their first year. Therefore, students will take the School of Veterinary Medicine student oath, receive their white coats, and be welcomed into the veterinary profession by Dean Stetter in this ceremony that begins their professional education.
