1 Vet Med Administrative Building

- Dean's Office, administrative departments
- 2 Scrubs Cafe
- **3** CCAH: Center for Companion Animal Health
 - LINAC-Accelerator
 - Community practice service
 - Some research labs and teams for companion animal research
 - Check-in for community practice service, medical oncol-ogy service, radiation oncology service, and integrative medicine service
- 4 VMTH: Veterinary Medical Teaching Hospital
- **5 VM3B:** Veterinary Medicine 3B

Ρ Putah Creek Parking

• One Health Institute

Rue

B

• Wildlife Health Center: SeaDoc Society program and the California Raptor Center

To Sacramento

• Houses research labs, like the 100 Genome Project

 Main teaching hall for DVM students MPT: Multi-Purpose Teaching Building Clinical Teaching Lab Microscope rooms VM3A: Veterinary Medicine 3A Necropsy Service Anatomy Lab JD. Wheat Lab Orthopedic Laboratory Tupper Hall: C. John Tupper Hall Schalm Complex New Advanced Veterinary Surgery Center Career, Leadership and Wellness services and administrative teams Gorleg Teaching Center: I.M. Gourley Clinical Teaching Center Hands-on learning for our students who are in their 2nd and 3rd years EAPL: Claire Giannini Hoffman Equine Athletic Performance Laboratory Horse treadmill Maddy Lab: Kennedy L. Maddy Equine Analytical Chemistry Laboratory Goal of the research, with respect to racing, is to determine what drugs can be detected in a horse, and how long those drugs stay in a horse's system The John E. Thurman, Jr. Lab provides livestock, equine and avian necropsy, histopathology, minunohistochemistry, electron microscoy, toxicology, serology, microbiclegi ogg and virology testing on site. The Veterinary Diagnostic Laborator provides highly environment of the school.	6 Valley Hall: Gladys Valley Hall
